

Learning intention    To be able to listen, make compromises, and reach a solution when there is a disagreement

Success criteria	 Needs improvement  Fairly good  Good  Great  Fantastic					Comment
						<i>How did I demonstrate this?</i> <i>What do I need to keep working on?</i>
1 I listen quietly and patiently to my teammates' ideas and feelings, even when I disagree.						
2 I stay calm and tell my teammates how I am feeling when we disagree, e.g. <i>'I feel annoyed when you do all the building, because I'd like to try my ideas too.'</i>						
3 I suggest ways to solve disagreements, e.g. <i>'If you build onto the front of the robot, maybe I can build onto the sides, so we can use both our ideas.'</i>						
4 I change what I am doing to help reach a solution, even if it isn't what I want to do.						
5 I say sorry if I do or say something that upsets someone.
